

Central Washington Beekeepers Association

2019 Season – Beekeeper Swarm Capture List

Please fill out the following form to be listed in the Central Washington Beekeepers Association's Beekeeper Swarm Capture List for the year of 2019. By signing up for swarm capture, you agree to have a box (with bottom and lid) and swarm capture equipment ready to go in a moment's notice if called. Having a swarm capture kit in your car at all times is highly recommended. Here is a list of suggested equipment for your kit: pruners, a bee brush, frames, with drawn-out honeycomb complete with honey, gloves and a veil, box to put bees in. Always have a veil and gloves with you; they are vital protective equipment. After filling out the form, please detach the bottom portion and give to the swarm coordinator, **Terri Towner**. You can also scan it and email it to her at **towner.terri@gmail.com** Or snail mail it to **680 Parish Rd., Selah, WA 98942**. *If you have questions or feel unsure about doing your first capture, please let us know. Catching a swarm is not hard, but until you do your first capture, you don't know.*

Name(s): _____

Best phone number to reach you: _____

Do you text? _____

Where are you located: _____

How miles are you willing to drive? (Circle One) 5, 10, 15, 20, 25, 30 Unlimited
